THE CRJ-550

GoJet is pleased to announce that United Airlines has selected it to fly Bombardier's new model aircraft, the CRJ-550. The CRJ-550 is a new aircraft type within Bombardier's successful CRJ family of equipment. It will revolutionize the customer experience in the 50-seat regional marketplace.

This also offers many enhancements not available on larger regional jets flying in the marketplace today. Passengers enjoy cabin features that include a true first-class experience, ample storage for each passenger's roller bag, more overall leg room per seat than any other 50-seat aircraft and inflight Wi-Fi.

OUR MISSION

Safety is the cornerstone of our mission and the foundation of our purpose. We strive to connect our communities and cities with the utmost regard for safety and to deliver a unique customer experience.

Quality in everything we do drives us to be the absolute best we can be. When all our teams work together, extraordinary outcomes are possible.

Diversity is what lends us our strength and what propels us forward. We believe in a diverse and inclusive employee group that emphasizes respect and compassion.

Efficiency to get our customers to where they need to be and to do it with enthusiasm and care is always our goal.
